

With this Quick Installation Guide you can watch Satellite TV within 1 minute. Follow below steps and enjoy the most clear and sharp TV images !!

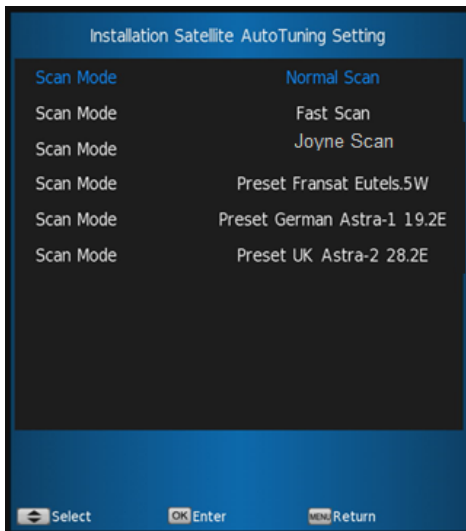

**1. Your SATENNE LED TV DEFAULT start is in SATELLITE MODUS.**

After you have switched ON the TV, it will start up in the LANGUAGE Menu.

**2. Select the required language and use the OK button.**

**3. You are now in the Satellite Auto Tuning Setting menu.**

Select with the ▲/▼ buttons FASTSCAN, JOYNE SCAN or one of the PRE-SET channel downloads and use the OK button to confirm.

**4. FastScan menu >** Select one of the required provider with the ◀ / ▶ buttons and the correct Satellite with the ▲ / ▼ and ◀ / ▶ buttons.

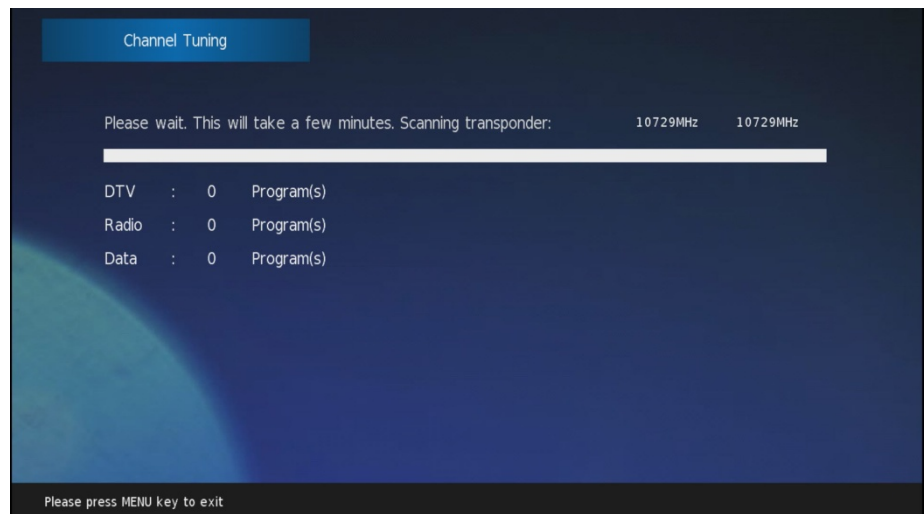

Check if you have enough signal and use the ▲ / ▼ buttons to go to SEARCH and use the OK button to confirm.

**5. Joyne Scan menu >** Here you can download the JOYNE channels on Eutelsat 9° East satellite.

Select Joyne Scan and use the OK button to confirm.

**6. After confirming SEARCH a pop-up will occur on screen with the question: "Do you want to start Satellite Autoscan?"**

Use the ◀ button to go to YES and confirm with the OK button.

**7. The selected TV and Radio channel scan (M7 Group, Joyne, one of the pre-set channel scan) will be loaded.**

**8. After the channel scan is finalized, the TV will start up on one of the TV channels.**

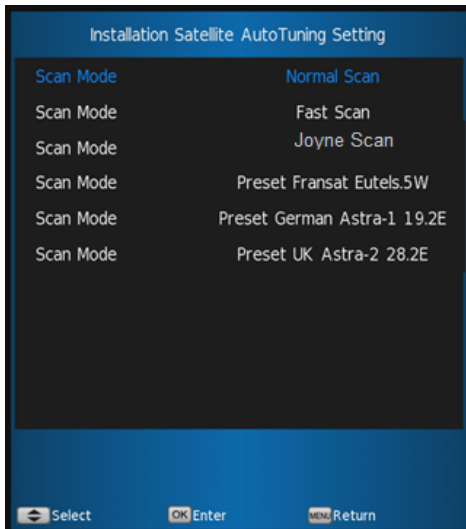

**WE WISH YOU A LOT OF VIEWING AND LISTENING PLEASURE!**

Met deze snelstart gids kunt u satelliet TV kijken binnen 1 minuut.  
Volg de onderstaande stappen en geniet van de meest scherpe TV beelden !!

1. Uw **SATENNE LED TV start standaard op in de SATELLIET MODUS.**  
Nadat u de TV heeft ingeschakeld zal de TV opstarten in het TAAL MENU.
2. Selecteer de gewenste taal en druk OK.
3. U bent nu in het Satellite Auto Tuning Setting menu.

Selecteer met de ▲/▼ toetsen FASTSCAN of JOYNE SCAN en druk OK.

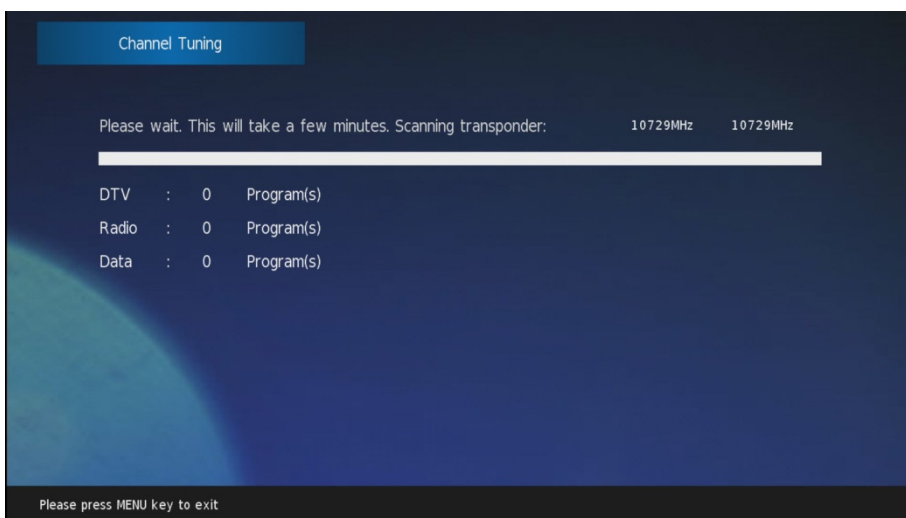

4. **FastScan menu** > Hier kunt u de gewenste provider kiezen met de ◀ / ▶ toetsen en de juiste satelliet met de ▲ / ▼ en ◀ / ▶ toetsen.

Controleer of u voldoende signaal heeft en ga met de ▲ / ▼ toetsen naar Zoeken en druk OK.

5. **Joyne Scan menu** > Hier kunt u de Joyne satelliet kanalen laden op De Eutelsat 9° oost satelliet. Selecteer Joyne Scan en druk OK.
6. In geval van de FastScan en Joyne scan krijgt u een pop-up boodschap met de vraag: *"Do you want to start Satellite Autoscans?"*.  
Ga met de ◀ toets naar JA en druk OK.

7. De TV en Radio kanalen van de gekozen M7 groep providers (bijvoorbeeld Canal Digitaal, TV Vlaanderen of TeleSat) of Joyne worden nu geladen.
8. Als de kanalen scan is beëindigd zal de TV opstarten op één van de TV kanalen.
